This Account is prepared pursuant to the Order of The House, in continuation of that presented in 1850, No. 404. Under the Head of Expenditure it shows only the payments made from the Exchequer of Ireland, and not the whole Expenditure by the United Kingdom on account of Ireland. On the other hand, the Receipts from the Crown Lands in Ireland are brought into the General Account of the Commissioners of Woods, &c., and do not appear as part of the Income of Ireland. The amount received from Rents and other sources of Land Revenues in Ireland in 1850 was 61,078½ 0s. 4d.

The Income of the Post Office in Ireland for 1850 fell short of its Expenditure by 45,671 4s. 7½d.; the Post Office in Great Britain made good the deficiency—[See Finance Accounts, No. 135, Rees, 1851.]

Note.—The value which the Government affords of the Consumption of Importations in Ireland is, to a certain extent, defective, inasmuch as the Coasting Regulations by which the Cross Channel Trade has been prevented since the year 1825, prevent the bearing of any Recoad of Goods imported Duty-free from Great Britain, either in the case of British Productions or of Foreign Merchandise upon which Duty has already been paid in a British Port. Of the Articles included in the present Account, those for which the consumption with earlier years is most affected by this circumstance are Refined Sugar, Flax Seed, Cotton Yarn, Cotton Wool, Woollen Yarn, Raw and Thrown Silk, and Iron Unwrought.

Note.—The latter section of the foregoing Return, exhibiting the Exports from Ireland to Great Britain, is of necessity defective. It shows the Exportations of Wheat and Oats alone (both grain and meal) on the authority of an official record; while the Exportations of Live Stock are stated on the credit of non-official documents collected by the officers of Customs at the respective ports of shipment. The documents in question do not comprehend the other articles specified in the Order of the Honorable House.
